# Sedation Dentistry

Nervous about going to the dentist?

## What is Sedation Dentistry?

Sedation Dentistry is a dental procedure which uses “medication” as a method to help patients relax and feel pain free during their treatment.

## 3 Types of Sedation

1. Anesthesia
2. Nitrous Oxide: AKA, “laughing gas.”
3. Oral Sedation

9% to 15%

of Americans avoid seeing the dentist because of anxiety and fear – which equates to about

30 to 40 million people.

Sedation Dentistry is a safe and viable option for anyone who is nervous or fearful about seeing a Dentist. We want to make sure you are comfortable, relaxed, anxiety-free, and pain-free - before, during and after your visit.
