

INVISALIGN

Invisalign is a virtually invisible solution, that uses a series of clear, removable aligners. Invisalign gradually and discretely moves your teeth towards to smile you have always wanted.

Benefits:

- Healthier Gums
- Easier to Clean
- Decreased Risk of Wear
- More Discrete
- Smooth & Comfortable
- Properly Brush & Floss
- Eat Foods You Normally Enjoy

Treatment:

Invisalign is more than getting straighter teeth. Invisalign can successfully treat:

1. Crowding
2. Spacing
3. Overbite
4. Underbite
5. Deep Bite
6. Open Bite
7. Straighten Teeth

The Clear Alternative to Braces!

Invisalign is comfortable to wear and easy to live with. You visit your doctor every month or two to check your progression and get new aligners. Average treatment time is about a year. Because the aligners are removable, you can continue to eat your favorite foods. And, you can brush and floss normally to keep your teeth and gums healthy.
